

Fair Registration Practices Report

Respiratory Therapists (2012)

The answers that you submitted to OFC can be seen below.

This Fair Registration Practices Report was produced as required by:

- the Fair Access to Regulated Professions Act (FARPA) s. 20 and 23(1), for regulated professions named in Schedule 1 of FARPA
- the Health Professions Procedural Code set out in Schedule 2 of the Regulated Health Professions Act (RHPA) s. 22.7 (1) and 22.9(1), for health colleges.

Provision of Information About Registration Practices (1 / 13)

Describe how you make information about registration practices available to individuals applying or intending to apply for registration. Specify the tools used to provide information, and the manner in which you make that information available, current, accurate and user friendly in each of these subcategories:

a) steps to initiate the registration process

*** SAME AS LAST YEAR ***

Information regarding the registration process is published on the CRTO website. Applicants may also obtain hard copies of the registration guides and fact sheets by contacting the CRTO or arranging a personal meeting. The CRTO aims to provide clear descriptions of the registration application process. Comprehensive application and pre-registration guides have been developed and are posted on the CRTO website. The application form and the pre-registration form include checklists listing the required documentation.

The guides provide information on the application and pre-registration processes, the amount of time an application or pre-registration process normally takes, the documents needed, and the applicable fees. Staff monitors and reviews the information for currency and accuracy on regular basis. Most of this information is available in English and French.

The Registration section of the CRTO website is divided into sections; this includes a section developed specifically for internationally educated individuals.

The CRTO (registration) staff is responsible for updating and maintaining the registration portion of the website and all registration documents (guides, application forms etc.) to ensure that the information is current, complete, clear, and easy to find.

b) requirements for registration

The CRTO's Registration Regulation sets a clear list of the requirements for registration in Ontario. All applicants are required to meet the same entry-to-practice requirements. This information is available on our

website (pre-registration and application guides, fact sheets, policies and the Registration Regulation). It can also be obtained in print by contacting the CRTO or arranging a personal meeting. Staff monitors and reviews the information for currency and accuracy on regular basis.

In order to obtain a Certificate of Registration an applicant for registration is required to meet the following registration requirements (for detailed information see section 8.a):

- Education requirement (non-exemptible)
- Examination requirement (non-exemptible)
- Language proficiency
- Eligibility to work in Canada
- Currency requirement
- Good character

This information is provided on the CRTO website (regulation, policies, application for registration guide, pre-registration guide and fact sheets). The pre-registration and application for registration forms include checklists for all registration/documentation requirements.

Applicants can also obtain hard copies of the registration and pre-registration guides and fact sheets by contacting the CRTO or arranging a personal meeting.

In addition, on request CRTO staff visits Ontario Respiratory Therapy programs to present to graduating students regarding application process and registration requirements.

c) explanation of how the requirements for registration are to be met, such as the number of years of schooling required for a degree to be deemed equivalent to an Ontario undergraduate degree, length and type of work experience, credit hours or program content

Detailed information regarding how the registration requirements (see section 8.a) must be met or demonstrated is available on our website (registration application guide, pre-registration guide, registration fact sheets, policies etc.). In addition, the CRTO website provides links to the approved programs and exam provider. Pre-registration forms, guides and policies for internationally educated respiratory therapists and health professionals (IERT/IEHPs) are posted on the CRTO website. These provide a detailed explanation of the pre-registration process. This information can also be obtained in print by contacting the CRTO or arranging a personal meeting. Staff monitors and reviews the information for currency and accuracy on regular basis.

The Good Character Policy outlines some of the considerations in determining if an applicant has demonstrated conduct that would make them unsuitable to practice. A copy of the policy is now posted on the CRTO website.

d) any education or practical experience required for registration that must be completed in Ontario or practice that must be supervised by a member of the profession who is registered in Ontario

*** SAME AS LAST YEAR ***

Not applicable – there is no education or practical experience required for registration that must be completed in Ontario or practice that must be supervised by a member of the profession in Ontario except that related to a holder of a Graduate certificate of registration (see section f below).

e) requirements that may be satisfied through acceptable alternatives

Information regarding acceptable alternatives is available on the CRTO website (pre-registration and application guides, policies). This information can also be obtained in print by contacting the CRTO or arranging a personal meeting. Staff monitors and reviews the information for currency and accuracy on regular basis.

The education and exam requirements are non-exemptible (except for applicants under AIT section 11). Language, Canadian citizenship/residency status, currency and good character requirements are exemptible. Applicants who do not meet these requirements are referred to the Registration Committee for review. The application and pre-registration guides identify the exemptible requirements for all streams of applicants.

The CRTO Application and Pre-Registration Document Requirements Policy lists the documents which may be required during the application and pre-registration process, submission requirements (e.g. original or photocopy). In addition the policy includes a provision for alternative documentation in exceptional circumstances where it may not be possible for the applicant to obtain the required documentation. The policy is posted on the CRTO website. A copy of the policy can also be obtained in print by contacting the CRTO or arranging a personal meeting.

f) the steps in the assessment process

Information regarding the assessment process is available on the CRTO website (registration application guide, pre-registration guide, registration fact sheets, policies etc.). This information can also be obtained in print by contacting the CRTO or arranging a personal meeting. Staff monitors and reviews the information for currency and accuracy on regular basis.

Once all the documents have been received, the Registrar will review the application for registration. If all of the registration requirements have been met, the Registrar will issue a certificate of registration. If the applicant does not meet all the registration requirements (e.g., currency requirement), or if the Registrar has doubts that a certificate of registration should be issued, s/he will refer the application to the Registration Committee for consideration. The applicant will be notified of the referral in writing and will have 30 days to submit any additional information to the Registration Committee.

As a result of the Gap Analysis Project (2010) the CRTO changed its approach to registering internationally educated applicants. Under the pre-registration process internationally-educated respiratory therapists (IERTs) and other health professionals (IEHPs) have three optional pathways to pursue registration and integration into respiratory therapy in Ontario. The CRTO developed a new pre-registration process and policy (Pathways for Internationally Educated Respiratory Therapists and Other Health Professionals Integrating into Respiratory Therapy in Ontario) which sets out the process for assessment of international applicants, the criteria on which the selection of pathway is based and what, if any, additional education must be completed in order for the registration requirements to be met. The pre-registration guide and the "Pathways" policy are posted on our website. In addition the information may be obtained in print by contacting the College or arranging a personal meeting. Staff monitors and reviews the information for currency and accuracy on regular basis.

g) the documentation of qualifications that must accompany each application; indicate which documents, if any, are required only from internationally trained applicants

Comprehensive application and pre-registration guides are posted on the CRTO website. The application form

and the pre-registration form include checklists listing the required documentation. In 2011 the CRTO developed the Application and Pre-Registration Document Requirements Policy. The Policy lists the documents which may be required during the registration process, submission requirements (e.g. original or photocopy) and includes a provision for alternative documentation in exceptional circumstances where it may not be possible for the applicant to obtain the required documentation. The policy is posted on the CRTO website. This information can also be obtained in print by contacting the College or arranging a personal meeting. Staff monitors and reviews the information for currency and accuracy on regular basis.

- Evidence of successful completion of education program:

- a. Graduates of approved Canadian programs:

- i. Applicants for registration must ensure that their official, final transcript of academic record has been submitted to the College;
 - ii. For recent graduates, a letter from the program director / co-ordinator is acceptable; however, the official, final transcript must be received within eight weeks of completing the program.
 - iii. The official, final transcript must be submitted directly from the academic institution.

- b. Graduates of programs offered outside Canada:

- i. Applicants who obtained their education in respiratory therapy (or a related field) outside of Canada must have their academic qualifications verified by World Education Services (WES). WES will attest to the authenticity of the documents reviewed and prepare a course-by-course evaluation report as required by the CRTO. All documents must be submitted to WES by the applicant in accordance with WES' "Required Documents" procedure. The applicant is responsible for the cost of the report and will be charged directly by WES for its services.
 - ii. Following a review of the documents submitted WES will send an evaluation report to the College and the applicant.
 - iii. Evaluation reports prepared by other organizations (e.g. Comparative Education Service of the University of Toronto) will be reviewed on an individual basis and may be accepted as an alternative to WES evaluation.

As part of the pre-registration process, internationally educated Respiratory Therapists are asked to provide the following documents:

- o a description of the program;
 - o program curriculum/syllabus (didactic and clinical components);
 - o detailed course outlines that include how students are evaluated;
 - o information on the clinical rotations of the program including location and number of hours/weeks;
 - o list of affiliations with other organizations (e.g., clinical sites, hospitals and other educational institutions);
 - o faculty lists and credentials;
 - o program accreditation status.

Where possible, original documentation should be sent directly from the institution to the CRTO. If the applicant's institution sends documents that are not in English or French, copies of the documents will be sent to the applicant for translation and certification. A document request form has been developed to facilitate the document submission process.

- Evidence of successful completion of the approved examination - Where applicable, a photocopy of the CBRC exam results letter must be included with an application for a General Certificate of Registration.

- Proof of Canadian citizenship, permanent residency status or a valid work permit

a. Approved documents:

- i. Birth certificate from a Canadian province or territory
- ii. Valid Canadian passport
- iii. Certificate of Canadian citizenship
- iv. Permanent Residency card
- v. Record of landing
- vi. Valid work permit (authorization to work as a Respiratory Therapist in Canada)

b. A copy of documentation in support of citizenship or immigration status must be submitted with an Application for Registration / Pre-registration.

• Proof of language proficiency - Where the applicant's first language is not English or French and their relevant health care instruction was not in English or French, the applicant must demonstrate fluency in either language. The CRTO accepts a number of test scores as proof of language proficiency (Language Proficiency Policy). A copy of the applicant's score report must be submitted with the initial Application for Registration / Pre-registration. The pre-registration guide and the Language Proficiency Requirements Policy have been updated with web links to language testing agencies.

• Registration verification - Where applicable, confirmation of registration (the Registration Verification Form) must be submitted directly to the CRTO from the regulatory / licensing body.

• Evidence of practicing the profession - Where applicable, confirmation of respiratory therapy employment (the Employment Verification Form) must be submitted directly to the CRTO from the employer.

h) acceptable alternatives to the documentation if applicants cannot obtain the required documentation for reasons beyond their control

The Application and Pre-Registration Document Requirements Policy lists the documents which may be required during the application and pre-registration process, submission requirements (e.g. original or photocopy). In addition the policy includes a provision for alternative documentation in exceptional circumstances where it may not be possible for the applicant to obtain the required documentation. The policy is posted on the CRTO website. A copy of the policy can also be obtained in print by contacting the CRTO or arranging a personal meeting. Staff monitors and reviews the information for currency and accuracy on regular basis.

i) how applicants can contact your organization

*** SAME AS LAST YEAR ***

Applicants may contact the CRTO by mail, telephone, email or in person. This information is available on our website, via phone greetings, the application form and guides. If requested, the Registration Manager will meet with applicants to discuss the application/pre-registration processes. Information related to staff contact information is available on the CRTO website. Staff monitors and reviews the information for currency and accuracy on regular basis.

j) how, why and how often your organization initiates communication with applicants about their applications

CRTO staff communicate with the applicants by phone, email or mail. The application for registration guide and the pre-registration guide outline the expected application timelines and process. The guides are posted on the CRTO website; copies of the guides can also be obtained in print by contacting the CRTO or arranging a personal meeting. Staff monitors and reviews the information for currency and accuracy on regular basis.

CRTO staff communicates with applicants throughout the registration and pre-registration process; starting with a confirmation email when an application or pre-registration form is received. Post application, the CRTO will notify the applicant if any documents are missing or when the application is approved. Once registered, an email confirmation will be sent to the Member. This is followed up with a new member package, i.e. letter from the Registrar and certificate of registration. Throughout the application and pre-registration process staff are available to answer questions from the applicants. The nature and frequency of communication is applicant specific and depends on how often an individual contacts the CRTO while moving forward through the registration process.

k) the process for dealing with documents provided in languages other than English or French

*** SAME AS LAST YEAR ***

The applicant is responsible for having documents that are in a language other than French or English translated. This information is available on our website (pre-registration guide, Pathways for Internationally Educated Respiratory Therapists and Other Health Professionals Integrating into Respiratory Therapy in Ontario policy). Staff monitors and reviews the information for currency and accuracy on regular basis.

l) the role of third-party organizations, such as qualification assessment agencies, organizations that conduct examinations or institutions that provide bridging programs, that applicants may come into contact with during the registration process

*** SAME AS LAST YEAR ***

Information regarding the various roles of third-party organizations is provided in the application guide and the pre-registration guide and is available on our website. It can also be obtained in print by contacting the CRTO or arranging a personal meeting. Links to the organizations' websites are available on the CRTO website. Staff monitors and reviews the information for currency and accuracy on regular basis

- Canadian Board for Respiratory Care (CBRC) - Administers entry-to-practice exam.
- Conestoga College - has partnered with the CRTO to pilot a refresher/retraining initiative for Respiratory Therapists.
- Conestoga College and Fanshawe College's RT programs have partnered with the CRTO and are providing dedicated spaces for internationally-educated individuals wishing to become RTs through the supported integration program.
- Council on Accreditation for Respiratory Therapy Education (CoARTE): Accredits Canadian respiratory therapy programs
- National Alliance of Respiratory Therapy Regulatory Bodies - The National Alliance of Respiratory Regulatory Bodies (National Alliance) is a consortium of the respiratory therapy regulatory bodies across Canada. The National Competency Profile developed by the Alliance is the basis in Canada for curriculum development within RT programs, accreditation, examination all other educational/teaching/assessment purposes.
- World Education Services (WES) - applicants who obtained their education in respiratory therapy (or a related field) outside of Canada are required to have their academic qualifications verified by WES.

m) any timelines, deadlines or time limits that applicants will be subject to during the registration process

The application guide and the pre-registration guide outline the expected application timelines, deadlines and process. The guides are posted on the CRTO website. Copies of the guides can also be obtained in print by contacting the CRTO or arranging a personal meeting. Staff monitors and reviews the information for currency and accuracy on regular basis. In addition information regarding timelines is communicated to the applicants in writing (letter and/or email) during the registration process.

- Graduate Certificates of Registration are issued for 18 months (Registration Regulation, application guide, pre-registration guide, Graduate Certificate of Registration Policy)
- Currency requirement: applications must be submitted to the CRTO within two years of graduation unless the applicant has been practicing as a Respiratory Therapists in the two years immediately preceding the application (Registration Regulation, application guide, pre-registration guide, Registration Currency Requirement Policy)
- Application and/or pre-registration files are kept open for up to 18 months (application guide, pre-registration guide).

n) the amount of time that the registration process usually takes

The application guide and the pre-registration guide outline the expected application timelines, deadlines and processes. This information is posted on the CRTO website; it can also be obtained in print by contacting the College or arranging a personal meeting. Staff monitors and reviews the information for currency and accuracy on regular basis. In addition information regarding timelines is communicated to the applicants in writing (letter and/or email) during the registration process.

The amount of time it takes for an applicant to become registered will depend on a number of factors; for example, whether the registration requirements are met upon application; whether the applicant graduated from an approved program; whether the applicant submits all of the required documents at the time of initial application.

Canadian educated graduates

For Canadian graduates, or those registering under the labour mobility provisions, an application takes two to six weeks to process. Within a week of the CRTO's receipt of the application staff will review the applicant's file to ensure that all the required documents have been submitted. These include documents submitted by the applicant and those sent directly to the CRTO by a third-party organization. If the file is incomplete, the CRTO communicates with the applicant, regarding outstanding documents. This is usually done by mail or email. The CRTO will keep an application file open for up to 18 months.

When all of the registration requirements have been met, the Registrar will approve the application for registration. Once approved, the applicant will be notified by mail or email. To complete the registration process, the applicant will be asked to submit the applicable registration fee (see section 2). The Registrar will issue a certificate of registration following receipt of the registration fee.

Applicants may be granted an 18-month Graduate (temporary) certificate of registration when they complete the educational component. After passing the CBRC examination the member receives a General Certificate of Registration (changes from Graduate to General class are processed within one to two weeks following receipt of the exam results from the member).

Non-Canadian trained graduates

Applicants educated outside of Canada are asked to complete the pre-registration process. This process is

designed to assess whether the applicant meets the CRTO's requirements for registration, and if not, identify gaps in knowledge and experience and refer him/her to an appropriate pathway to fill those gaps and integrate into Respiratory Therapy in Ontario. The pre-registration process begins from the time the CRTO receives completed forms and all required documentation. The CRTO will keep a Pre-Registration file open for up to 18 months. It may take up to 16 weeks from the time the pre-registration form is received to complete the full pre-registration assessment and issue a letter of direction.

At this time, the CRTO's Registration Committee is conducting a review of the Pre-Registration process. We expect that some policy changes may be recommended in the upcoming months as a result of this review. For this reason, in October 2012, the Registration Committee made a decision to put on hold any new Pre-Registration referrals until the policy review is completed. We hope that this process will improve our assessment tools and reporting mechanisms to better meet the needs of applicants. All Pre-Registration applicants have been communicated accordingly.

o) information about all fees associated with registration, such as fees for initial application, exams and exam rewrites, course enrolment or issuance of licence

Information about fees associated with registration is available on the CRTO website (application guide, pre-registration guide, forms, By-laws). It can also be obtained in print by contacting the College or arranging a personal meeting. Staff monitors and reviews the information for currency and accuracy on regular basis. The pre-registration guide and the Language Proficiency Requirements Policy have been updated with web links to language testing agencies to enable applicants' access to information regarding language testing fees.

p) accommodation of applicants with special needs, such as visual impairment

Accommodation of applicants with special needs is considered on a case-by-case basis. The CRTO is a member of the Federation of Health Regulatory Colleges' Accessibility for Ontarians with Disabilities Act working group. Policies and procedures relating to the accommodation of special needs are posted the CRTO website. Staff members completed the Government of Ontario's online education module on Accessibility for Ontarians with Disabilities Act (AODA).

The CBRC has policies regarding the provision of specific accommodations for applicants with special needs writing the examination and this information is provided on the CBRC website and in the candidate manual.

It should be noted that respiratory therapy can be a physically demanding profession. Applicants to RT programs with severe disabilities are likely to be referred to other health profession education programs.

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

The changes to CRTO's process relevant to provision of information are as follows:

- A section on Accessibility for Ontarians with Disabilities Act (AODA) was added to the CRTO website; the CRTO developed a policy on AODA Customer Service Standards. The policy is now posted on the CRTO website. Staff members completed the Government of Ontario's online education module on Accessibility for Ontarians with Disabilities Act;
- The application and pre-registration guides were amended to identify exemptible requirements for all streams of applicants;
- French application form and guide were posted on the CRTO website;

- Links to acceptable language-testing websites were added to the pre-registration guide and the Language Proficiency Requirements Policy;
- The application for registration checklist and the pre-registration checklist were amended to clarify that documents submitted in support of an application are kept on file by the CRTO;
- Link to the new Registration Regulation was posted on the CRTO website;
- As a result of the Registration Regulation change, the CRTO amended a number of registration policies. These are now posted on the CRTO website.

[BACK TO INDEX](#)

Amount of Fees (2 / 13)

Are any of the fees different for internationally trained applicants? If yes, please explain.

The application and registration fees are set in the CRTO By-law (article 32). The fees, which are the same for all applicants, were initially approved in 1994 (Regulation); the amounts have not changed since then.

Application fee (non-refundable) \$75

Registration fee* \$500

*The CRTO registration year runs from March 1 to the end of February. For applicants who have never been registered with the CRTO, registration fees are prorated on a quarterly basis, as follows: \$500 as of March 1; \$375 as of June 1; \$250 as of September 1; and \$125 as of December 1. Former members returning to the CRTO are required to pay the full registration fee of \$500 regardless of the month in which the application is made.

Canadian Board of Respiratory Care (CBRC)

National Certification Examination \$700.00

The examination fee is the same for all applicants and payable directly to the Canadian Board of Respiratory Care (CBRC).

Pre-Registration Fee – At this time the CRTO does not charge a pre-registration application fee as the pre-registration process is considered to be in a pilot stage. Council approved \$500.00 equivalency of competence assessment fee (CRTO By-law 32.10); however this fee has not been implemented.

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

Not applicable; no changes in the CRTO registration practices relevant to this section occurred during the reporting year.

[BACK TO INDEX](#)

a) What are your timelines for making registration decisions?

From the time an application is received by the CRTO:

1-2 weeks: CRTO Staff contacts the applicant to confirm receipt of the application. If applicable, the applicant will be advised of missing/incomplete documentation.

2-4 weeks: CRTO Staff reviews the application, if approved the applicant will be notified by mail or email. To complete the registration process the applicant will be asked to submit the applicable registration fee.

4-6 weeks: A Certificate of registration is issued upon receipt of the registration fee.

Applicants may be granted an 18-month Graduate (temporary) certificate of registration when they complete the educational component. After passing the CBRC examination the member receives a General Certificate of Registration (changes from Graduate to General class are processed within one to two weeks following receipt of the exam results from the member).

Expected Timelines for Applicants who do not appear to meet the registration requirements

From the time an application is received by the CRTO:

1-2 weeks CRTO Staff contacts the applicant to confirm receipt of the application. If applicable, the applicant will be advised of missing/incomplete documentation.

2-4 weeks: CRTO Staff reviews the application, if the application does not appear to meet all of the registration requirements the application will be referred to the Registration Committee for consideration. The applicant will be notified of the referral in writing and will have 30 days to submit additional information to the Registration Committee in support of the application.

6-12 weeks: Panel of the Registration Committee reviews the application for registration and any other documents submitted by the applicant.

10-14 weeks: A copy of the Panel's Order and Reasons is provided to the applicant. If the applicant is not satisfied with the decision he / she may appeal the Panel's decision to the Health Professions Appeal and Review Board (HPARB). The applicant will be notified in writing of the right to appeal and will be provided with HPARB's contact information.

Pre-registration

From the time a pre-registration application is received by the CRTO:

1 – 4 weeks: Pre-Registration Form submission CRTO staff will contact the applicant to confirm receipt of the Pre-Registration Form. If applicable, the applicant will be advised of missing/incomplete documentation.

4 – 6 weeks: Program Review When all of the required documentation has been received, the CRTO staff will review the information on file, and if applicable conduct a program review.

6 – 8 weeks: Competency Review Tool The applicant will be asked to meet with CRTO staff (either in person or by teleconference) to complete the Competency Review Tool

8 – 12 weeks: Registration Committee Review CRTO's Registration Committee will review the information collected and make a recommendation.

12 – 16 weeks Letter of Direction: A Letter of Direction will be issued by the CRTO. The letter will outline the results of the Pre-Registration process, the CRTO's conclusion regarding the pathway, and the appropriate resources needed to pursue the pathway (e.g., RT program contact information, how to access refresher/retraining programs). Once the Letter of Direction has been issued the Pre-Registration file will be closed.

At this time, the CRTO's Registration Committee is conducting a review of the Pre-Registration process. We expect that some policy changes may be recommended in the upcoming months as a result of this review. For this reason, in October 2012, the Registration Committee made a decision to put on hold any new Pre-Registration referrals. We hope that this process will improve our assessment tools and reporting mechanisms to better meet the needs of applicants. All Pre-Registration applicants have been contacted accordingly.

b) What are your timelines for responding to applicants in writing?

*** SAME AS LAST YEAR ***

One (1) to four (4) weeks, depending on the nature of the correspondence.

c) What are your timelines for providing written reasons to applicants about all registration decisions, internal reviews and appeal decisions?

*** SAME AS LAST YEAR ***

Written reasons to applicants for registration and pre-registration applicants are provided within one to four weeks of the date of the decision.

d) Explain how your organization ensures that it adheres to these timelines.

*** SAME AS LAST YEAR ***

- Internal review of the College's registration practices.
- Twice a year staff reviews all application files.

We are in the process of making changes to our database to track application / pre-registration decision timelines.

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

The Registration Committee is conducting a review of the Pre-Registration process. As a result, all new Pre-Registration referrals have been put on hold.

[BACK TO INDEX](#)

Access to Records (4 / 13)

a) Describe how you give applicants access to their own records related to their applications for registration.

Upon written request and at no charge the CRTO will provide an applicant for registration or a pre-registration applicant with information and/or copies of documentation relevant to his or her registration or pre-registration file. Requests for access to documents will be processed within 30 days, failing which the applicant will be

notified of the delay and the reason for it. Applicants may submit their written requests by mail, fax or email.

b) Explain why access to applicants' own records would be limited or refused.

Under certain circumstances, the CRTO will not provide the information or part of the information. These circumstances are in keeping with the CRTO's privacy policy where the safety of a person is jeopardized or where the information is subject to another Act, court order or other law.

c) State how and when you give applicants estimates of the fees for making records available.

Not applicable. Applicants may contact the College to request personal information from their file at no cost.

d) List the fees for making records available.

*** SAME AS LAST YEAR ***

Not applicable. Applicants may contact the College to request personal information from their file at no cost.

e) Describe the circumstances under which payment of the fees for making records available would be waived or would have been waived.

*** SAME AS LAST YEAR ***

Not applicable. Applicants may contact the College to request personal information from their file at no cost.

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

Access to Records Policy was approved by Council in September. The policy is now posted on the CRTO website. The application for registration and the pre-registration guide were amended to clarify that the CRTO will provide, upon written request from an applicant and at no charge, information and/or copies of documentation relevant to the applicant's file.

[BACK TO INDEX](#)

Resources for Applicants (5 / 13)

a) List and describe any resources that are available to applicants, such as application guides, exam

blueprints or programs for orientation to the profession.

- Registration Application Guide – detailed explanation of the application / registration process
- Application Form and Checklist (list of required documentation)
- Exam Fact Sheet – detailed explanation of the exam process
- National Competency Profile – list of competencies considered essential for entering the practice of respiratory therapy in Ontario
- RT Video – general overview of respiratory therapy in Ontario
- Pre-Registration Form and Checklist (list of required documentation)
- Pre-Registration Guide – detailed explanation of the pre-registration process
- Document Request Form – a form designed to assist our pre-registration applicants in obtaining the required documentation from their educational institutions
- A Competency Review Tool - The purpose of the tool is to assist the College in identifying details of the IERT/IEHP's knowledge and experience related to the practice of respiratory therapy compared to the RT competencies listed in the Canadian National Competency Profile.
- Internationally educated RTs and other health care professionals undertaking one of the pre-registration pathways have access to a number of support mechanisms including:
 - The support of the international student services within the RT program
 - Introduction to Canadian Health Care System course
 - ORAC on-line course for internationally educated individuals
 - Introduction to Respiratory Therapy Practice in Ontario course, offered and developed by the CRTO;
- Refresher/retraining courses developed in partnership with Conestoga College:
 - Review of Registration Standards for Registered Respiratory Therapists;
 - Anaesthesia and Airway Management;
 - Mechanical Ventilation
 - Pharmacology / Pathophysiology
 - Neonatal / Pediatric Respiratory Care.
- Links to a number of relevant websites: e.g., Canadian Board for Respiratory Care examination, Orientation to the Canadian Health Care System, Culture and Context, HealthForceOntario, Office of the Fairness Commissioner etc.

b) Describe how your organization provides information to applicants about these resources.

*** SAME AS LAST YEAR ***

Information regarding the resources available to applicants for registration and pre-registration applicants is posted on our website (links, guides, etc.).

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

Conestoga College in partnership with the CRTO developed three additional refresher/retraining courses.

Internal Review or Appeal Processes (6 / 13)

In this section, describe your internal review or appeal process. Some regulatory bodies use these two terms (*internal review* and *appeal*) for two different processes, some use only one of these terms, and some use them interchangeably. Please use the term that applies to your profession. If you use both terms (for two different processes), please address both.

a) List your timelines for completing internal reviews or appeals of registration decisions.

*** SAME AS LAST YEAR ***

Although the Regulated Health Professions Act does not refer to it as an internal “review” or “appeal”, there is a Registration Committee referral process in cases where the Registrar has doubts about whether an applicant meets the registration requirements, is of the opinion that terms, conditions and limitations should be imposed, or proposes to refuse the application. (Note: We have been advised by the Office of the Fairness Commissioner to view these referrals as “internal reviews” for the purposes of section 6 of this report.)

The Registration Committee meets face-to-face (on average) once every two months. However, if required, a teleconference meeting of the Committee or a Panel may be scheduled between regular Committee meetings. If the applicant is not satisfied with the Registration Committee decision he / she may appeal (externally) to the Health Professions Appeal and Review Board (HPARB), an independent review board established under the Regulated Health Professions Act (RHPA).

Expected timelines for applicants who do not appear to meet the registration requirements

From the time an application is received by the College:

1-2 weeks CROTO Staff contacts the applicant to confirm receipt of the application. If applicable, the applicant will be advised of missing/incomplete documentation.

2-4 weeks: CROTO Staff reviews the application, if the application does not appear to meet all of the registration requirements the application will be referred to the Registration Committee for consideration. The applicant will be notified of the referral in writing and will have 30 days to submit additional information to the Registration Committee in support of the application.

6-12 weeks: Panel of the Registration Committee reviews the application for registration and any other documents submitted by the applicant.

10-14 weeks: A copy of the Panel’s Order and Reasons is provided to the applicant. If the applicant is not satisfied with the decision he / she may appeal the Panel’s decision to the Health Professions Appeal and Review Board (HPARB). The applicant will be notified in writing of the right to appeal and will be provided with HPARB’s contact information. The applicants have 30 days to submit their appeal to HPARB.

Pre-Registration Applicants who disagree with the CROTO recommendation may submit an appeal to the Registration Committee. This process follows the timelines identified above.

i. State the number of internal reviews or appeals of registration decisions that exceeded your timelines.

*** SAME AS LAST YEAR ***

Zero

ii. Among internal reviews or appeals that exceeded your timelines, state the number that were from internationally trained applicants.

*** SAME AS LAST YEAR ***

Zero

b) Specify the opportunities you provide for applicants to make submissions regarding internal reviews or appeals.

*** SAME AS LAST YEAR ***

Applicants are advised they have 30 days to make submissions if the Registrar refers the matter to the Registration Committee under 15(2) of the Code.

c) Explain how you inform applicants about the form in which they must make their submissions (i.e., orally, in writing or by electronic means) for internal reviews or appeals.

*** SAME AS LAST YEAR ***

Applicants are informed about the Registration Committee referral and the 30 day period to make submissions in writing.

d) State how you ensure that no one who acted as a decision-maker in a registration decision acts as a decision-maker in an internal review or appeal of the same registration decision.

*** SAME AS LAST YEAR ***

The Registrar reviews the application for registration and makes a decision whether a certificate of registration can be issued (application meets all registration requirements) or whether to refer the application to a Panel of the Registration Committee. As such it is the Panel of the Registration Committee who acts as a decision-maker in the "internal review" (as defined by the OFC) and not the Registrar.

The Pathways for Internationally Educated Respiratory Therapists and Other Health Professionals Integrating into Respiratory Therapy in Ontario Policy specifies that a different Panel (new composition) will review pre-registration referral appeals.

e) Describe your internal review or appeal process.

*** SAME AS LAST YEAR ***

Where the Registrar has doubts about whether an applicant meets the registration requirements, is of the opinion that terms, conditions and limitations should be imposed, or proposes to refuse the application, the application will be referred to a Panel of the Registration Committee for consideration. The applicant will be notified of the referral in writing and will have 30 days to submit additional information to the Registration Committee in support of the application. The Registration Committee Panel will review the application for

registration and any additional documentation submitted by the applicant, and based on the review the Panel may:

1. Direct the Registrar to issue a certificate of registration
2. Direct the Registrar to issue a certificate of registration with terms, conditions and limitations
3. Direct the Registrar to refuse to issue a certificate of registration
4. Request that the applicant submit additional information
5. Direct the Registrar to issue a certificate of registration if the applicant successfully completes additional training.

A copy of the Panel's Order and Reasons will be provided to the applicant within two to four weeks. If the applicant is not satisfied with the decision he / she may appeal (externally) the Panel's decision to the Health Professions Appeal and Review Board (HPARB), an independent review board established under the Regulated Health Professions Act (RHPA). The applicant will be notified in writing of the right to appeal and will be provided with HPARB's contact information and the HPARB Fact Sheet. The applicants have 30 days to submit their appeal to HPARB.

Pre-Registration Process

When the pre-registration application is complete, staff will review the information collected and make a recommendation as to which pathway the applicant should pursue in order to meet the CRTO registration requirements. This recommendation is reviewed by the Registration Committee. A letter of direction is then issued to the applicant. The letter outlines the results of the pre-registration assessment, the CRTO's conclusion regarding the pathway, and the appropriate resources needed to pursue the pathway (e.g., RT program contact information, how to access refresher/retraining programs). It should be noted that the process above is a pre-registration screening process designed to assist the IEHP/IERT in fulfilling the registration requirements and as such is not considered to be a referral under section 15 of the RHPA. In addition, no order will be issued from the Registration Committee under section 18 of the RHPA at this juncture.

However, if the pre-registration applicant disagrees with the CRTO's recommendation he/she may submit an appeal to the Registration Committee. The Registrar will refer the appeal application to the Registration Committee and the applicant will be notified of the referral in writing and will have 30 days to submit additional information to the Registration Committee in support of the application. A copy of the Panel's Order and Reasons will be provided to the applicant within two to four weeks. If the applicant is not satisfied with the decision he / she may appeal (externally) the Panel's decision to HPARB. The applicant will be notified in writing of the right to appeal and will be provided with HPARB's contact information and the HPARB Fact Sheet. The applicants have 30 days to submit their appeal to HPARB.

f) State the composition of the committee that makes decisions about registration, which may be called a Registration Committee or Appeals Committee: how many members does the committee have; how many committee members are members of the profession in Ontario; and how many committee members are internationally trained members of the profession in Ontario.

Registration Committee:

Total Members: 9

Profession Members: 7

Public members (appointed by the government): 2

Internationally Trained Profession Members: 0

Registration Committee Panels (as set out in the Health Professions Procedural Code),

Composition of panels

(2) A panel shall be composed of at least three persons, at least one of whom shall be a person appointed to the Council by the Lieutenant Governor in Council. 2007, c. 10, Sched. M, s. 24 (2).

Quorum

(3) Three members of a panel constitute a quorum. 1991, c. 18, Sched. 2, s. 17 (3).

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

Not applicable; no changes in the CRTO registration practices relevant to this section occurred during the reporting year.

[BACK TO INDEX](#)

Information on Appeal Rights (7 / 13)

This section refers to reviews or appeals that are available after an internal review or appeal. Describe how you inform applicants of any rights they have to request a further review of or appeal from a decision.

A copy of the Registration Committee Panel's Order and Reasons will be provided to the applicant. If the applicant is not satisfied with the decision he / she may appeal the Panel's decision to the Health Professions Appeal and Review Board (HPARB), an independent review board established under the Regulated Health Professions Act (RHPA). The applicant will be notified by the Registrar in writing of the right to appeal and will be provided with HPARB's contact information and HPARB Information Sheet.

The Pathways for Internationally Educated Respiratory Therapists and Other Health Professionals Integrating into Respiratory Therapy in Ontario Policy and the Pre-Registration Guide outline the pre-registration appeal process.

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

Not applicable; no changes in the CRTO registration practices relevant to this section occurred during the reporting year.

[BACK TO INDEX](#)

Assessment of Qualifications (8 / 13)

This category covers your processes for assessing all qualifications, such as academic credentials, competencies, language ability or practical experience.

a) List the criteria that must be met in order for an applicant's qualifications to satisfy the entry-to-practice requirements for your profession.

The CRTO's Registration Regulation sets a clear list of the requirements for registration in Ontario. In order to obtain a Certificate of Registration with the CRTO an applicant for registration is required to meet the following registration requirements (Labour Mobility provisions are addressed in section 11):

Education requirement (non-exemptible)

An applicant for registration with the College must:

(a) have successfully completed a respiratory therapy program offered in Canada that, at the time of completion, was approved or accredited by the Council or by a body approved by the Council; or

(b) have,

(i) successfully completed a program offered outside Canada either in respiratory therapy or in a closely related field that is acceptable to the Registration Committee, along with any additional education that is required by the Registration Committee, and

(ii) demonstrated through an assessment process acceptable to the Registration Committee that he or she has knowledge, skills and judgment equivalent to those of a person who has successfully completed a program referred to in clause (a).

Notes:

- In order to obtain "approved program" status, a Canadian Respiratory Therapy education program must obtain and maintain satisfactory accreditation status with the Council on Accreditation for Respiratory Therapy Education (CoARTE). The criteria applied by CoARTE are viewed by Council as relevant to the approval of respiratory therapy education programs.
- Knowledge, skills and judgement, or competencies, for entry into the profession are outlined in a National Competency Profile. This document, developed by the National Alliance of Respiratory Regulatory Bodies, is the basis in Canada for curriculum development within RT programs, accreditation, examination all other educational/teaching/assessment purposes. The document defines the competencies and performance expectations that respiratory therapy students are expected to be able to demonstrate upon graduation.

Pre-registration process

- Review of Respiratory Therapy programs:

In order to determine that an applicant's academic qualifications are sufficiently similar to the Canadian standard reflected in the National Competency Profile (NCP), the CRTO will conduct an academic review of the program. This review is based on documentary evidence submitted to the CRTO by the education program completed by the applicant. A program reviewer uses the International Program Checklist to determine the degree of comparability of the education program to the competencies listed in the NCP.

- Competency Review

The Competency Review stage helps to identify details of the applicant's knowledge and experience related to the practice of respiratory therapy compared to the competencies listed in the NCP. The pre-

registration applicant is asked to meet with a qualified assessor and to complete a Competency Review Tool.

Examination requirement (non-exemptible)

An applicant for a General Certificate of Registration must have successfully completed the examinations approved by the Council of the College; at this time the CRTO accepts the Canadian Board of Respiratory Care (CBRC) National Examination.

Prior to completing the approved examination, an applicant may be granted a Graduate Certificate of Registration. This is a temporary certificate of registration – issued for 18 months. It allows the Graduate Member to perform the functions of a Respiratory Therapist under the supervision of a fully-qualified RT or another regulated health professional.

Eligibility to work in Canada (exemptible)

The applicant for registration must be a Canadian citizen or a permanent resident of Canada or be authorized under the Immigration and Refugee Protection Act (Canada) to engage in the practice of Respiratory Therapy.

Currency requirement (exemptible)

An applicant for registration must have met the education requirement within the two years immediately preceding his/her application for registration unless the applicant was practicing Respiratory Therapy within that two-year period.

Good Character (exemptible)

An applicant for registration must fully disclose details of:

- any criminal offence of which the applicant has been found guilty, including any offence under the Controlled Drugs and Substances Act (Canada) or the Food and Drugs Act (Canada).
- every professional misconduct, incompetence, incapacity or other similar proceeding that he or she is the subject of and that relates to his or her registration or licensure in Ontario in another profession or in another jurisdiction in respiratory therapy or another profession.
- every finding of professional misconduct, incompetence, incapacity or other similar finding that he or she previously has been the subject of while registered or licensed in Ontario in another profession or in another jurisdiction in respiratory therapy or another profession.

In addition, the applicant must satisfy the CRTO that his or her past and present conduct afford reasonable grounds for belief that the applicant,

- i. is mentally competent to practise respiratory therapy,
- ii. will practise respiratory therapy with decency, integrity and honesty and in accordance with the law, and
- iii. will display an appropriately professional attitude.

The Good Character Policy outlines some of the considerations in determining if an applicant has demonstrated conduct that would make them unsuitable to practice.

Language proficiency (exemptible)

If the applicant's first language is neither English nor French and his or her Respiratory Therapy (or related)

training was not in English or French, the applicant will need to submit documentation demonstrating fluency in English or in French.

The College of Respiratory Therapists of Ontario will accept one of the tests scores listed below as proof of language proficiency.

English language proficiency test scores

CanTEST - Reading: 4.5, Writing: 4, Listening: 5.0, Speaking: 4.5, Overall: 5.0

International English Language Testing System (IELTS) - Total: 7, Reading: 7, Writing: 7, Listening: 7, Speaking: 7

Michener English Language Assessment (MELA) - Reading: 8, Writing: 8, Listening: 9, Speaking: 9

Test of English as Foreign Language TOEFL – Internet based - Reading: 22, Writing: 20, Listening: 24, Speaking: 24, Overall: 90

Canadian Academic English Language Test (CAEL) - Reading: 70, Writing: 70, Listening: 80, Speaking: 70, Overall: 70

French language proficiency test scores

TESTCan - Reading: 4.5 Writing: 4.0 Listening: 5.0 Speaking: 4.5 Overall: 5.0

Test d'évaluation de français (TEF) - Overall: 5

Test de français international (TFI) - Reading/Writing: 400 Listening/Speaking: 410 Overall: 810

b) Describe the methodology used to determine whether a program completed outside of Canada satisfies the requirements for registration.

Knowledge, skills and judgement, or competencies, for entry into the profession are outlined in a National Competency Profile. This document, developed by the National Alliance of Respiratory Regulatory Bodies, forms the basis in Canada for curriculum development within RT programs, accreditation, examination all other educational/teaching/assessment purposes. This includes assessment of internationally educated applicants and assessment of educational programs outside of Canada. The document defines the competencies and performance expectations that respiratory therapy students are expected to be able to demonstrate upon graduation.

Pre-Registration Process – RT Program Review:

In the case of Internationally Educated Respiratory Therapists, (IERT) the program of study is evaluated using the International RT Program Checklist. The checklist is based on the National Competency Profile. In order for the checklist to be completed the IERT is asked to submit a detailed program curriculum/course outline. The CRTO developed a Document Request Form to assist our applicants in this process. In addition applicants are asked to have their academic qualifications verified by World Education Services (WES). WES attests to the authenticity of the documents reviewed and prepared a course-by-course evaluation report.

Once all of the documents have been received, an assessor uses the International Respiratory Therapy

Program Checklist to assess the international RT program based on specific criteria related to topics covered, length of program, didactic and clinical components, and accreditation status. The assessor is usually the Professional Practice Advisor or delegate who is also a Respiratory Therapist.

To summarize, the assessor will:

- a. conduct a detailed review of the program to determine the degree of comparability of the education program to the competencies listed in the NCP;
- b. identify specific gaps in the program curriculum based on the checklist; and
- c. recommend to the Registration Committee any additional training and/or education that may need to be completed by the applicant.

c) Explain how work experience in the profession is assessed.

There is no requirement for Ontario/Canada work experience. However, an applicant for registration must have met the education requirement within the two years immediately preceding his/her application or, within that two-year period have been practicing as an RT. In addition, an applicant from an unregulated jurisdiction registering under the Labour Mobility Policy must demonstrate that they have worked for at least 750 hours in the host jurisdiction.

All applicants are asked to provide a detailed employment history at the time of application. The Ministry of Health and Long-Term Care Health Professions Database project requires that the CRTC collect employment history information.

Although the CRTC does not require Ontario work experience to be registered, all CRTC approved RT education programs include a lengthy clinical internship (range of 8 – 12 months) in their final academic year of study.

Pre-registration process – competency review: Pre-registration applicants are asked to meet with CRTC staff for a Competency Review. A Competency Review Tool has been developed for this purpose. The tool is based on the National Competency Profile. The Competency Review is used to assist the CRTC in identifying details of the IERT/IEHP's knowledge and experience related to the practice of respiratory therapy compared to the RT competencies listed in the Canadian National Competency Profile. It allows the CRTC to assess whether gaps in education (if any) are addressed through work experience.

d) Describe how your organization ensures that information used in the assessment about educational systems and credentials of applicants from outside Canada is current and accurate.

Education records must be submitted directly from the educational institution. With respect to program review, the program being assessed is the one that the applicant completed; and not a program currently offered by the educational institution. Therefore, it is possible the current and accurate documents are not available. The CRTC developed a Document Request Form to facilitate the program review process.

A database of programs reviewed has been developed to ensure consistency when assessing Respiratory Therapy programs.

As part of the Pre-Registration process, applicants educated outside of Canada are required to have their academic qualifications verified and evaluated by World Education Services (WES Canada). WES performs a credential assessment in order to ensure the authenticity and validity of academic documents, credentials and programs. Also, WES determines the Canadian academic equivalencies of international academic credentials. WES uses a sophisticated database to store all information about educational institutions, and previous assessment precedents and decisions. WES staff, including dedicated researchers, are continuously updating information on changes to education systems around the world.

The CRTO's program review checklist used to determine equivalency of RT programs is based on the National Competency Profile and outlines consistent criteria that must be met in order for a program to be recognized as equivalent. The National Alliance of Respiratory Therapy Regulatory Bodies has a formal NCP review process.

e) Describe how previous assessment decisions are used to assist in maintaining consistency when assessing credentials of applicants from the same jurisdictions or institutions.

*** SAME AS LAST YEAR ***

All previous decisions are kept on file. A database of programs reviewed has been developed to ensure consistency when assessing Respiratory Therapy programs.

f) Explain how the status of an institution in its home country affects recognition of the credentials of applicants by your organization.

*** SAME AS LAST YEAR ***

The institutions' accreditation status if any (for example, The Commission on Accreditation for Respiratory Care (CoARC) accreditation status for US Respiratory Therapy programs) may be considered during the program equivalency review.

g) Describe how your organization accommodates applicants with special needs, such as visual impairment.

To date the CRTO has not had any requests for accommodation in this area. Accommodation of applicants with special needs is considered on a case-by-case basis, and in accordance with CRTO's policies and procedures (AODA Customer Service Standard Policy). This policy is available on the CRTO website.

h) State the average length of time required to complete the entire registration process, from when the process is initiated to when a registration decision is issued.

On average it may take two to four weeks to complete the registration process where there is no additional assessment required and all documentation/fees have been received.

For applicants referred to a Panel of the Registration Committee the complete registration process may take six to 14 weeks.

The pre-registration assessment process may take up to 16 weeks. However, at this time, the CRTO's Registration Committee is conducting a review of the Pre-Registration process. We expect that some policy changes may be recommended in the upcoming months as a result of this review. For this reason, in October 2012, the Registration Committee made a decision to put on hold any new Pre-Registration referrals. We hope that this process will improve our assessment tools and reporting mechanisms to better meet the needs of applicants. All Pre-Registration applicants have been contacted accordingly.

i. State whether the average time differs for internationally trained individuals.

*** SAME AS LAST YEAR ***

The average time required to complete the registration process differs for internationally trained applicants.

ii. If the average time differs for internationally trained individuals, state whether it is greater or less than the average for all applicants, and the reasons for the difference.

The average time required to complete the registration process is greater for internationally trained applicants. Internationally trained applicants undergo the pre-registration process which does not apply to graduates of approved Canadian Respiratory Therapy programs or Respiratory Therapists registered with other Canadian jurisdictions applying under labour mobility legislation.

The Pre-Registration process is designed to assess whether an internationally educated applicant meets the CRTC's requirements for registration, and if not, identify gaps in his/her knowledge and experience and refer them to an appropriate pathway to fill those gaps and integrate into Respiratory Therapy in Ontario.

In addition it generally takes internationally educated applicants longer to obtain documentation.

i) If your organization conducts credential assessments:

i. Explain how you determine the level (e.g., baccalaureate, master's, Ph.D.) of the credential presented for assessment.

*** SAME AS LAST YEAR ***

Not applicable. The College does not conduct credential assessments. There are no requirements for a specific degree / diploma in our Registration Regulation.

ii. Describe the criteria that are applied to determine equivalency.

*** SAME AS LAST YEAR ***

Not applicable. The College does not conduct credential assessments.

iii. Explain how work experience is taken into account.

*** SAME AS LAST YEAR ***

Not applicable. The College does not conduct credential assessments.

j) If your organization conducts competency assessment:

i. Describe the methodology used to evaluate competency.

*** SAME AS LAST YEAR ***

See section k) below.

ii. Explain how the methodology used to evaluate competency is validated, and how often it is validated.

*** SAME AS LAST YEAR ***

See section k) below.

iii. Explain how work experience is used in the assessment of competency.

*** SAME AS LAST YEAR ***

See section k) below.

k) If your organization conducts prior learning assessment:

i. Describe the methodology used to evaluate prior learning.

The pre-registration process is a (competency based) prior learning assessment. The policies and tools used in the pre-registration process are based on the National Competency Profile (NCP). Knowledge, skills and judgement, or competencies, for entry into the profession are outlined in the NCP. This document, developed by the National Alliance of Respiratory Regulatory Bodies, forms the basis in Canada for curriculum development within RT programs, accreditation, examination and all other educational/teaching/assessment purposes. This includes assessment of internationally educated applicants and assessment of educational programs outside of Canada. The NCP defines the competencies and performance expectations that respiratory therapy students are expected to be able to demonstrate upon graduation.

The assessment consists of the following:

- Respiratory Therapy Program Review (see section 8. b)
- Competency Review – The CRTO developed a Competency Review Tool based on the National Competency Profile (NCP). The Competency Review Tool is completed first by the applicant and then discussed in detail with an assessor over the course of an interview. The assessor is usually the Professional Practice Advisor or delegate who is also a Respiratory Therapist. The purpose of the Competency Review Tool is to assist the CRTO in identifying details of the IERT/IEHP's knowledge and experience related to the practice of respiratory therapy compared to the RT competencies listed in the NCP. Using the checklist in the Competency Review Tool as a guide, applicants are asked to discuss their theoretical knowledge related to respiratory therapy regardless of whether that knowledge was gained through a formal educational program or work experience. Further, the applicant is asked to describe their specific work experience related to the practice of respiratory therapy.

At the end of the assessment, the assessor will identify any specific respiratory therapy competency gaps in

the applicant's knowledge and determine whether or not the gaps in education have been addressed through experience.

Based on this assessment, the applicant will be referred to one of the three pathways:

- **PATHWAY 1** This pathway will assist IERTs whose respiratory therapy program is substantially equivalent and who are lacking only some particular competencies, to complete specific education. On completion of the process the applicant will be considered as meeting the CRTO's educational requirement for registration.
- **PATHWAY 2** Known as the "supported integration model", provides a supported path through the full-time Respiratory Therapy program often allowing for specific course exemptions within individual semesters. Conestoga College in Kitchener and Fanshawe College in London, Ontario partnered with the CRTO on this initiative. These educational partners will set aside dedicated spaces for eligible candidates. On completion of the program the IERT/IEHP will be a graduate of an approved Canadian RT program and therefore will meet the CRTO's educational requirement for registration.
- **PATHWAY 3** IERTs/IEHPs who have not completed a substantially equivalent respiratory therapy program and who are not eligible for advanced standing will be recommended to apply for regular entry into any of the 6 full-time respiratory therapy programs in Ontario. If accepted, the student will be eligible for Ontario financial aid and on completion of the program the applicant will be considered as meeting the CRTO's educational requirement for registration.

ii. Explain how the methodology used to evaluate prior learning is validated, and how often it is validated.

The methodology follows a valid and reliable process using the National Competency Profile. Knowledge, skills and judgement, or competencies, for entry into the profession are outlined in a National Competency Profile. This document, developed by the National Alliance of Respiratory Regulatory Bodies, forms the basis in Canada for curriculum development within RT programs, accreditation, examination and all other educational/teaching/assessment purposes. This includes assessment of internationally educated applicants and assessment of educational programs outside of Canada. The document defines the competencies and performance expectations that respiratory therapy students are expected to be able to demonstrate upon graduation. The National Alliance of Respiratory Therapy Regulatory Bodies has a formal NCP review process.

iii. Explain how work experience is used in the assessment of prior learning.

*** SAME AS LAST YEAR ***

The pre-registration process is a competency based assessment, and includes review of competencies gained through work experience.

l) If your organization administers examinations:

i. Describe the exam format, scoring method and number of rewrites permitted.

Not applicable, the CRTO does not administer examinations.

ii. Describe how the exam is tested for validity and reliability. If results are below desired levels,

describe how you correct the deficiencies.

Not applicable, the CRTO does not administer examinations.

iii. State how often exam questions are updated and the process for doing so.

Not applicable, the CRTO does not administer examinations.

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

The amended Registration Regulation was passed into law and as a result the CRTO conducted a detailed review of all registration policies. A number of policies were amended to align with the new regulation, and new policies were developed.

The National Alliance of Respiratory Therapy Regulatory Bodies released a report entitled Establishing Pan-Canadian Benchmarks for Language Requirements for Respiratory Therapy. Following review of the report, members of the Registration Committee recommended a number of changes to the CRTO Language Proficiency Policy to align the CRTO requirements with the benchmarks identified in the report. These changes were approved by Council in May. The revised policy is posted on the CRTO website.

In addition, the Registration Committee is conducting a review of the Pre-Registration process. We expect that some policy changes may be recommended in the upcoming months as a result of this review.

[BACK TO INDEX](#)

Third-Party Organizations (9 / 13)

a) List any third-party organizations (such as language testers, credential assessors or examiners) relied upon by your organization to make assessment decisions.

Council on Accreditation for Respiratory Therapy Education (CoARTE): In order to obtain “approved program” status, a Canadian Respiratory Therapy education program must obtain and maintain satisfactory accreditation status with CoARTE. The criteria applied by CoARTE are viewed by Council as relevant to the approval of respiratory therapy education programs.

Canadian Board of Respiratory Care (CBRC): Administers the entry-to-practice exam. The entry to practice exam is a non-exemptible registration requirement.

National Alliance of Respiratory Therapy Regulatory Bodies (Alliance): Developed the National Competency Profile. The Alliance conducted a study of issues related to the entry of internationally educated practitioners through a Foreign Credential Recognition program funded by Human Resources and Social Development Canada.

World Education Services (WES) Canada: WES provides credential assessments and authentication services.

Conestoga College and Fanshawe College: Conestoga College in Kitchener and Fanshawe College in London, Ontario agreed to partner with the CRTO for the purpose of the supported integration (Pre-registration Pathway 2). These educational partners set aside dedicated spaces for eligible candidates referred for supported integration under our new pre-registration process.

Conestoga College: Conestoga College in partnership with the CRTO developed a number of courses for the purpose of refresher/retraining (Pre-registration Pathway 1).

The CRTO will accept one of the following tests scores as proof of language proficiency:

- CanTEST
- International English Language Testing System (IELTS)
- Michener English Language Assessment (MELA)
- Test of English as Foreign Language (TOEFL)
- Canadian Academic English Language Test (CAEL)
- Test d'évaluation de français (TEF)
- Test de français international (TFI)

b) Explain what measures your organization takes to ensure that any third-party organization that it relies upon to make an assessment:

i. provides information about assessment practices to applicants

Canadian Board of Respiratory Care (CBRC): Signed agreement includes administration of the examination, security measures, provision of information to exam candidates, and fairness requirements. The CBRC has a candidate guide and provides information on the examination process on its website (e.g. exam application manual).

World Education Services (WES) and CRTO have signed a memorandum of understanding, which includes a "Fairness" provision. WES acknowledges that the CRTO is required by subsection 24(2) of the Health Professions Procedural Code to take reasonable measures to ensure that WES makes its assessments in a way that is transparent, objective, impartial and fair. In addition the agreement stipulates that WES follows the quality assurance guidelines of the Alliance of Credential Evaluation Services of Canada. Applicants can find most information about the WES process through the WES website. This includes information about WES services and fees, documentation requirements, and the application process. The on-line status update feature allows applicants to check on their application status 24 hours-a-day, 7-days-a-week, and make changes to their evaluation order. WES customer service staff is available to answer questions from walk-in applicants during regular business hours. Applications are available in several ways: on WES website through a real-time application, by printing an application (PDF) from the website and mailing it to WES, or by receiving a printed application through partner agencies. A walk-in service allows applicants to submit applications in person. Depending on availability of staff, walk-in applicants can receive personalized advice about their application. WES acknowledges receipt of application in most cases immediately. In cases if documentation or payment is missing applicants are informed by email or mail (if no email address is available). Evaluation results are communicated through hard copy evaluation reports and on-line status update. Through partnerships with the Welcome Centres in Ajax and Pickering, and with Newcomer Centre of Peel, WES staff provide regular in-depth advisement to internationally educated individuals on their needs for evaluations and general licensure processes in Ontario and Canada.

Conestoga College: Agreement for the Development, Delivery and Evaluation of a Pilot Refresher/Retraining Initiative Between Conestoga College and the CRTO includes a "Fairness" provision. Conestoga College acknowledges that the CRTO is required by subsection 24(2) of the Health Professions Procedural Code to take reasonable measures to ensure that Conestoga College makes its assessments in a way that is transparent, objective, impartial and fair. Conestoga College will continue to work with the CRTO to achieve

this standard.

ii. utilizes current and accurate information about qualifications from outside Canada

This section applies to WES only. WES evaluation resources and information are stored in a custom-built database that contains information:

- Key details (admission requirements, program length) for more than 19,133 credentials;
- Grade conversions for over 3,273 grading systems;
- Contact details and status of more than 40,396 institutions (including 7,366 universities) in 214 countries and jurisdictions;
- More than 12,653 program majors specific to the level of education.

In addition, syllabi from a number of countries and programs are stored in the database. The WES database is controlled and maintained by a team of professionals whose duty is to gather, verify and enter information.

iii. provides timely decisions, responses and reasons to applicants

The memorandum of understanding stipulates that WES will provide timely decisions and responses to applicants. The average length of time for providing decisions is seven days (when all documents are received). As a part of the application process, applicants are directed to read about the WES process and about which documents are required for evaluation, in what format and from what source. Based on when WES receives all required documents, the time frame to complete an evaluation report is 7 business days. Any time, prior, throughout the evaluation period, and after it is completed, applicants have an option to enquire about the process or status of their evaluation through email, phone, review their status through self-directed on-line status update feature or by visiting WES office in Toronto in person. Web-based self-serve assessment tools such as grade conversion guide, iGPA Calculator and International Degree Preview (IDP) available on WES website are designed to provide an immediate feedback to applicants and organizational users about credential(s) in question or its elements before formal evaluation process is completed.

The agreement signed with the CBRC stipulates that exam candidates will receive their results in a timely manner.

iv. provides training to individuals assessing qualifications

This section applies to WES only. Formal in-house training of credential evaluators is conducted under the guidance of the Assistant Director and Manager of Evaluation Services. WES Evaluators receive thorough, high quality and systematic training in order to ensure that they produce accurate evaluation reports which are consistent with WES's established evaluation policies and current research. In addition, to contribute to overall competency of academic credential evaluators, WES offers free Webinars on best practices in document authentication, education systems and evaluation methodologies. The free Webinars are complemented with annual in-person Training Workshops. Furthermore, WES maintains an extensive library of printed and electronic resources. In addition to the printed and electronic resources, more than 500,000 individual evaluations and their academic records are archived and constitute an important resource that is electronically accessible to evaluators. WES publishes WENR (World Education News and Reviews), a monthly electronic newsletter, which is distributed to subscribers around the world. It contains news on international trends in education, offers "how-to" articles on credential evaluation techniques, and profiles educational systems around the world. Evaluators have access to 21 years of articles and information on international

comparative education. WES website contains free Resources, Tools, white papers, and etc., for practitioners in international academic credential evaluations. More recently, WES has established a Research and Advisory Services (RAS) to address the needs of institutions and professional licensing bodies outside of mere evaluation services.

v. provides access to records related to the assessment to applicants

This section applies to WES only. An on-line self-directed status update feature allows applicants to receive information about the evaluation process, including specific details regarding which credentials are being assessed, what documents have been received already and what is still required. As the file moves through the process, the status is continuously updated. Each time WES receives academic documents, records are reviewed and applicant is informed of the result of this review by email or mail. Upon completion of evaluation process evaluation results are posted through on-line status update feature. WES then sends a hard copy of the report to the applicant and any other recipient(s) of their choice. Additional fees are applicable for extra copies. Upon request, applicants may have access to records concerning their file stored in WES office. In some such cases, WES might decide to redact certain elements of the documents prior to being shared with the applicant, in order to protect the verification process. WES' procedures for handling personal information are in accordance with the Personal Information Protection and Electronic Document Act (PIPEDA).

vi. accommodates applicants with special needs, such as visual impairment

WES applicants may be accommodated on an individual basis, based on identified needs. The WES office adheres to the requirements of Accessibility for Ontarians with Disabilities Act (AODA) which took effect on January 2012. All WES Customer Service and Client Relations staffs are trained in AODA requirements.

The agreement signed with the CBRC stipulates that the CBRC will accommodate applicants with special needs.

c) If your organization relies on a third party to conduct credential assessments:

i. Explain how the third party determines the level (e.g., baccalaureate, master's, Ph.D.) of the credential presented for assessment.

The WES credential evaluation methodology is based on the level, scope and intent of the program completed. WES considers the admission requirement to the program, the length of the program, the depth and breadth of the curriculum covered, and the options for further study of the degree holder. In addition, WES examines the official status of the degree-granting institution and the program in the home country's education system, as well as any official ratings. These criteria combine and measure credential and educational systemic features to identify if similarities are adequately substantial to grant a Canadian (credential) equivalency. WES evaluation reports reflect organizational policy and are not the point of view of individual evaluators.

ii. Describe the criteria that are applied to determine equivalency.

*** SAME AS LAST YEAR ***

Not applicable, WES does not determine program equivalency.

iii. Explain how work experience is taken into account.

*** SAME AS LAST YEAR ***

Not applicable.

d) If your organization relies on a third party to conduct competency assessments:

i. Describe the methodology used to evaluate competency.

Not applicable, the CRTO does not rely on third party organizations to conduct competency assessments.

ii. Explain how the methodology used to evaluate competency is validated, and how often it is validated.

Not applicable, the CRTO does not rely on third party organizations to conduct competency assessments.

iii. Explain how work experience is used in the assessment of competency.

Not applicable, the CRTO does not rely on third party organizations to conduct competency assessments.

e) If your organization relies on a third party to conduct prior learning assessments:

i. Describe the methodology used to evaluate prior learning.

Not applicable, the CRTO does not rely on third party organizations to conduct prior learning assessments.

ii. Explain how the methodology used to evaluate prior learning is validated, and how often it is validated.

Not applicable, the CRTO does not rely on third party organizations to conduct prior learning assessments.

iii. Explain how work experience is used in the assessment of prior learning.

Not applicable, the CRTO does not rely on third party organizations to conduct prior learning assessments.

f) If your organization relies on a third party to administer examinations:

i. Describe the exam format, scoring method and number of rewrites permitted.

*** SAME AS LAST YEAR ***

The exam is hard copy with a scanable answer sheet completed by the candidate. There are two (2) exams: Paper 1 is 100 stand alone questions. Paper 2 is 150 Case Simulation questions.

The content of questions is based on an exam “Blueprint” or matrix provided by the National Alliance of Respiratory therapy Regulatory Bodies.

Candidates are given points for correct answers. No points are deducted for incorrect answers. Candidates are given a score based on the sum of both papers (a percent of questions correct out of 250).

ii. Describe how the exam is tested for validity and reliability. If results are below desired levels, describe how you correct the deficiencies.

*** SAME AS LAST YEAR ***

The candidate completes a scanable answer sheet. This sheet is scanned and statistical data is produced which is forwarded to the CBRC contracted Psychometric Consultant for review. The Psychometric Consultant prepares a preliminary set of question statistics. The CBRC Examination Development and Review Committee reviews the statistics on each question to ensure that they meet acceptable psychometric standards. The questions are also reviewed for current practice, ambiguity, translation, print quality and spelling/typing errors.

Should a question not meet any of the above criteria (Item ii), it would be removed from the scoring and the results re-tabulated. The question is then marked for editing, re-categorization or deletion from the question bank.

iii. State how often exam questions are updated and the process for doing so.

*** SAME AS LAST YEAR ***

Examination Bank questions are reviewed and if needed, updated on an annual basis. Should a question be changed then it is “piloted” as a new question. Pilot questions may be tested in two ways; they can be included on an examination to gather statistical data but are not included in the scoring process, or, they are run as an independent paper with volunteers who have successfully completed the examinations within the last two years.

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

The National Alliance of Respiratory Therapy Regulatory Bodies released a report entitled Establishing Pan-Canadian Benchmarks for Language Requirements for Respiratory Therapy. Following review of the report, members of the Registration Committee recommended a number of changes to the Language Proficiency Policy to align the CRTO requirements with the benchmarks identified in the report. These changes were

approved by Council in May. The revised policy is posted on the CRTO website.

Conestoga College in partnership with the CRTO developed a number of additional courses for the purpose of refresher/retraining (Pre-registration Pathway 1).

[BACK TO INDEX](#)

Training (10 / 13)

a) Describe the training that your organization provides to:

i. individuals who assess qualifications

Senior staff, legal counsel and consultants provide guidance, oversight and peer training. The CRTO provides formal orientation and on-going training for members of the Registration Committee in evaluation practices, decision writing, and relevant legislation. Each year, Registration Committee members are provided with annual orientation session which includes registration process overview, relevant legislation and fair decision making and anti-discrimination training.

Members of the Registration Committee and staff are encouraged to attend ORAC sessions on Managing Cultural Differences.

Representatives from the CRTO participate in the Ontario Regulators for Access Consortium and Registration Exchange Group meetings. These sessions provide a forum for discussing best practices in registration, policy initiation and development.

Staff and Council members have attended a number of conferences and other events related to regulation, credential and competency assessment. Specific events include:

- Registration Committee orientation (annual)
- Presentations and webinars by organizations such as CLEAR, WES
- CAPLA webinar
- CLEAR conference
- CNNAR Conference
- Council Education Day – anti-discrimination training
- Ontario Human Rights Commission – Human Rights 101
- Rights Equity and the State – Ryerson University course on human rights and equity.

In addition the CRTO staff maintains a resource binder (Registration Policies and Procedures). The binder is used as a reference by the Registration Committee and staff.

ii. individuals who make registration decisions

Senior staff, legal counsel and consultants provide guidance, oversight and peer training. The CRTO provides formal orientation for members of the Registration Committee in evaluation practices, decision writing, and relevant legislation. Each year, Registration Committee members are provided with annual orientation and training session which includes registration process overview, relevant legislation and fair decision making and anti-discrimination training.

Members of the Registration Committee and staff are encouraged to attend ORAC sessions on Managing Cultural Differences.

Representatives from the CRTO participate in the Ontario Regulators for Access Consortium and Registration Exchange Group meetings. These sessions provide a forum for discussing best practices in registration, policy initiation and development.

Staff and Council members have attended a number of conferences and other events related to regulation, credential and competency assessment. Specific events staff include:

- CAPLA webinar
- CLEAR conference
- CNNAR Conference
- Council Education Day – anti-discrimination training
- Ontario Human Rights Commission – Human Rights 101
- Rights Equity and the State – Ryerson University course on human rights and equity.

In addition the CRTO staff maintains a resource binder (Registration Policies and Procedures). The binder is used as a reference by the Registration Committee and staff.

iii. individuals who make internal review or appeal decisions

*** SAME AS LAST YEAR ***

Not applicable (no internal appeal process; appeals go to the HPARB).

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

Annual training on anti-discrimination has been added to the Registration Committee Goals and Terms of Reference. Anti-discrimination training was provided to Council, Committee and staff members at the November 30, 2012 CRTO Education Day.

[BACK TO INDEX](#)

Agreements on the Recognition of Qualifications (11 / 13)

Examples of agreements on the recognition of professional qualifications include mutual recognition, reciprocity and labour mobility agreements. Such agreements may be national or international, between regulatory bodies, associations or jurisdictions.

a) List any agreements on the recognition of qualifications that were in place during the reporting period.

All Canadian Respiratory Therapy regulatory bodies had a Mutual Recognition Agreement (MRA) in place to facilitate mobility of respiratory therapists from one Canadian jurisdiction to another. Under the MRA, applicants were exempt from the educational and examination requirements if they met certain requirements

such as minimum practice hours.

Because of amendments to the Agreement on Internal Trade (AIT) and the introduction of new labour mobility legislation in Ontario, the MRA is no longer in effect. The new Registration Regulation includes sections on mobility for applicants from regulated and unregulated jurisdictions. The National Alliance of Respiratory Therapy Regulatory Bodies negotiated an Agreement for the Registration of Respiratory Therapists from Unregulated Canadian Jurisdictions. The CRTO has two Policies with regard to Labour Mobility:

- Labour Mobility: Applicants from Regulated Canadian Jurisdictions Policy; and
- Labour Mobility: RT Applicants from Unregulated Canadian Jurisdictions Policy.

b) Explain the impact of these agreements on the registration process or on applicants for registration.

Applicants from regulated Canadian Jurisdictions:

An applicant who:

- holds an out-of-province certificate as defined in section 22.15 of the Health Professions Procedural Code that is equivalent to a class of a certificate of registration issued by the College; and
- has practiced the profession there within the past two years.

shall, subject to the provisions of section 22.18 of the Health Professions Procedural Code and the measures permitted there, be deemed to meet the educational, clinical experience and registration examination requirements for that class of certificate.

The CRTO may:

- require the applicant to demonstrate proficiency in English or in French if the equivalent language proficiency requirement was not a condition of registration in the host regulatory jurisdiction;
 - require an individual undergo material additional training, experience, examinations or assessments if they have not practiced the profession in the host jurisdiction within the 2 years preceding the application;
 - impose equivalent terms, conditions and limitations on a certificate of registration to those imposed by the host regulatory body;
 - require the applicant to provide evidence of good character;
 - require the applicant to obtain professional liability insurance, hold an appropriate immigration status and not to be incapacitated;
 - refuse to register the applicant or impose terms, conditions and limitations on a certificate of registration if such action is deemed necessary to protect the public interest as a result of complaints, or criminal, disciplinary or other proceedings, against the applicant in any jurisdiction whether in or outside Canada, relating to the applicant's competency, conduct or character.
-
- In order to register with the CRTO under the labour mobility provisions applicants from Canadian regulated jurisdictions must complete the CRTO Application for Registration form, and submit this form, together with the applicable fee(s) and documentation to the College office. In addition, the CRTO may impose post-registration requirements such as compliance with the Quality Assurance Program.

Applicants from Unregulated Canadian Jurisdictions

An applicant who:

- is a registered member of the CSRT practising in an unregulated jurisdiction in Canada ;
- is permitted by the CSRT to use the title "Registered Respiratory Therapist";
- is in compliance with a program of continuing education established by the CSRT that meets the

accepted requirements set by all of the signatories;

- has safely practised the profession within that unregulated jurisdiction for a minimum of 750 hours within the previous two years while holding a current registered membership with the CSRT;
- provides a letter of reference from their last or current employer(s) in a form prescribed by the signatories; and
- provides a letter from the CSRT confirming that the applicant has been a registered member in good standing for the past two years.

The CRTO may require the applicant to:

- demonstrate proficiency in English or in French;
- provide evidence of good character (including a criminal record check);
- demonstrate knowledge of the standards maintained by a regulatory body applicable to the practice of respiratory therapy in that province, and
- obtain professional liability insurance.

The CRTO may refuse to license an applicant or impose terms, conditions, or restrictions on his or her ability to practice (including imposing a requirement for additional training, experience, examinations or assessments as a condition of licensing) where such action is considered necessary to protect the public interest as a result of complaints, disciplinary, criminal or other proceedings or information against the applicant in any jurisdiction, whether in or outside Canada, relating to the competency, conduct or character of that applicant.

In order to register with the College of Respiratory Therapists of Ontario under the Agreement applicants from Canadian unregulated jurisdictions must complete the CRTO Application for Registration form, and submit this form, together with the applicable fee(s) and documentation to the College office.

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

The new Registration Regulation includes sections on mobility for applicants from regulated and unregulated jurisdictions. The CRTO Labour Mobility Policies were updated with references to the new regulation.

Data Collection (12 / 13)

Languages in which application information materials are available

a) Indicate the languages in which application information materials were available in the reporting year.

Language	Yes/No
English	Yes
French	Yes

Other (please specify)

Not applicable

Paid staff employed by your organization

b) In the table below, enter the number of paid staff employed by your organization in the categories shown, on December 31 of the reporting year.

When providing information for each of the categories in this section, you may want to use decimals if you count your staff using half units. For example, 1 full-time employee and 1 part-time employee might be equivalent to 1.5 employees.

You can enter decimals to the tenths position only. For example, you can enter 1.5 or 7.5 but not 1.55 or 7.52.

Category	Staff
Total staff employed by the regulatory body	9
Staff involved in appeals process	2
Staff involved in registration process	3

Countries where internationally educated applicants were initially trained

c) In the following table, enter the top source countries where your applicants¹ were originally trained in the profession (**excluding** Canada), along with the number of applicants from each of these source countries.

Enter the country names in descending order. (That is, enter the source country for the greatest number of your applicants in the top row, the source country for the second greatest number in the second row, etc.)

Use the dropdown menu provided in each row to select the country.

Note that only one country can be reported in each row. If two or more countries are tied, enter the information for these tied countries in separate rows.

Country of training (Canada excluded)	Number of applicants in the reporting year
U.S.	8
Philippines	7
Bangladesh	2
Egypt	2
Iran	2

Algeria	1
Colombia	1
Morocco	1
Pakistan	1
Russia	1

¹Persons who have applied to start the process for entry to the profession.
 Select "n/a" from the drop-down list if you do not track this information. Enter "0" in a "Number of applicants" field if you track the information, but the correct value is zero.

Jurisdiction where members were initially trained

d) Indicate where your members² were initially trained in the profession (use only whole numbers; do not enter commas or decimals).

The numbers to be reported in the **Members** row are the numbers on December 31st of the reporting year. For example, if you are reporting registration practices for the calendar year 2009, you should report the numbers of members in the different categories on December 31st of 2009.

	Jurisdiction where members were initially trained in the profession (before they were granted use of the protected title or professional designation in Ontario)					
	Ontario	Other Canadian Provinces	USA	Other International	Unknown	Total
Members on December 31st of the reporting year	2617	182	68	6	0	2873

² Persons who are currently able to use the protected title or professional designation of the profession.

Enter "n/a" if you do not track this information. Enter "0" if you track the information, but the correct value is zero.

Additional comments:

Note: Under the new Registration Regulation, Inactive Members are no longer able to use the protected title or professional designation and as such were not counted for the purpose of section 12 d).

Applications your organization processed in the past year

e) State the number of applications your organization processed in the reporting year (use only whole numbers; do not enter commas or decimals).

from January 1 st to December 31 st of the reporting year	Jurisdiction where applicants were initially trained in the profession (before they were granted use of the protected title or professional designation in Ontario)					
	Ontario	Other Canadian Provinces	USA	Other International	Unknown	Total
New applications received	148	10	8	18	0	184
Applicants actively pursuing licensing (applicants who had some contact with your organization in the reporting year)	29	2	8	18	0	57
Inactive applicants (applicants who had no contact with your organization in the reporting year)	0	0	0	0	0	0
Applicants who met all requirements and were authorized to become members but did not become members	2	2	0	0	0	4
Applicants who became FULLY registered members	93	6	0	0	0	99
Applicants who were authorized to receive an alternative class of licence³ but were not issued a licence	3	0	0	0	0	3
Applicants who were issued an alternative class of licence³	21	0	0	0	0	21

³ An alternative class of licence enables its holder to practise with limitations, but additional registration requirements must be met in order for the member to be fully licenced. Please list and describe below the alternative classes of licence that your organization grants, such as student, intern, associate, provisional or temporary.

Enter "n/a" if you do not track this information. Enter "0" if you track the information, but the correct value is zero.

Additional comments:

	Class of licence	Description
a)	General	<p>A General Certificate of Registration is issued to an individual who has met all academic requirements and has successfully completed the registration examination or evaluation approved by the College. If a Member holds a General Certificate of Registration, he/she must use the designation RRT and may use "Registered Respiratory Therapist" or "Respiratory Therapist" as his/her professional title.</p>
b)	Graduate	<p>A Graduate Certificate of Registration is issued to an individual who has met all academic requirements but has not yet successfully completed the registration examination or evaluation approved by the College. If a Member holds a Graduate Certificate of Registration, he / she must use the designation GRT and may use "Graduate Respiratory Therapist" as his/her professional title. The following conditions apply to a Graduate Certificate of Registration:</p> <p>The (Graduate) member shall,</p> <ol style="list-style-type: none"> 1. at the first reasonable opportunity, advise every employer of any terms, conditions and limitations that apply to the member's graduate certificate of registration if their employment is in the field of Respiratory Therapy; 2. only perform a controlled act that is authorized to the profession if it is performed under the general supervision of a member of a College within the meaning of the Regulated Health Professions Act, 1991 who, the member holding the graduate certificate has reasonable grounds to believe, is authorized to perform the controlled act and is competent to do so and who is available to be personally present at the site where the authorized act is performed on ten minutes notice; 3. not delegate a controlled act; and

		<p>4. not perform added or advanced prescribed procedures below the dermis. A Graduate Certificate is deemed to have been revoked 18 months after its initial date of issue.</p>
<p>c)</p>	<p>Limited</p>	<p>A Limited Certificate of Registration was issued to individuals who had not met all requirements for a General Certificate of Registration but provided sufficient evidence to a Panel of the Registration Committee of their competence to practice in a defined area of the scope of practice of the profession. (CRTO stopped issuing Limited Certificates of Registration on February 25, 1999). If a Member holds a Limited Certificate of Registration, he / she must use the designation PRT and may use "Practical Respiratory Therapist" as his/her professional title.</p>
<p>d)</p>	<p>Inactive</p>	<p>A Member registered with a General or Limited Certificate of Registration may apply for an Inactive Certificate of Registration provided he/she is not practising the profession in the broadest sense of that phrase. The following conditions apply to an Inactive Certificate of Registration:</p> <p>The (Inactive) member shall not,</p> <ul style="list-style-type: none"> (a) engage in providing direct patient care; (b) use his or her professional title or designation; (c) supervise the practice of the profession; or (d) make any claim or representation to having any competence in the profession
<p>e)</p>		<input type="text"/>
<p>f)</p>		<input type="text"/>
<p>g)</p>		<input type="text"/>
